### **Beginner:**

A beginner has little or no playing experience. Late level beginners know a handful of chords, but do not yet change smoothly from chord to chord and have difficulty tuning their instrument without assistance. Generally cannot play a song smoothly all the way through. Late level beginners generally have had less than six months of private instruction.

### **Novice:**

A Novice knows basic chords (most major and minor chords) and has a working knowledge of power chords. Chord changes are accomplished smoothly and without hesitation. Novices frequently cannot play a song all the way through, but probably plays some riffs as well as chords. Steady, rhythmic strumming patterns and some experience with a flat pick are common accomplishments. Novices have had from 6 months to 2 years of private instruction or playing experience.

### **Intermediate:**

An Intermediate is comfortable with major and minor barre chords and can play movable scales with ease. Rhythmic patterns are smooth and effortless, and student plays easily with a flat pick.
